Seb,
Being that we moved out of the State of Emergency and are demobilizing the EOC, can you ask PW if they can be quoted instead of Kim.

Beth and her group does not need to approve.

Subject: (FOR APPROVAL) Media Inquiry: Demonstration Clean-up Efforts - Student/National Post

Hello Everyone,

For your approval, we received an inquiry from Adam Hussein, a student interning for the National Post, who's writing an article regarding the cleanup efforts following the truck demonstration.

We have taken the response that was previously provided to media on Monday regarding clean up efforts, and updated it with information from Kim Ayotte's update to Council last night to propose the response below. We've also run this by the Public Works Department who have approved the content from their end of things. Can you let me know if this works for you? @Cere, Rachel, can you get Kim's approval and confirm his attribution to the response?

We will also send the student the feature story that is being prepared for today regarding the clean-up efforts.

"City staff have supported the Ottawa Police Service since Saturday evening to clean up City streets. All litter and debris left by the protesters should be cleared today and sixteen 25 cubic meter waste bins have been filled so far. The City also ensured that any fuel left behind by the protesters was safely collected and disposed of.

Roads crews also continue to remove snow and salt roads in the areas that they could not previously access. The last step, as part of the City's efforts to restore the downtown core, will be to remove the barriers that were used to block off streets and this work will take several days to complete."
